Temporary Road Disruptions: The Avenue and Watson Street

AusNet

When

Monday 19 January until late February 2026

Reason for works

AusNet is investigating the feasibility of a new underground transmission connection from Brooklyn Terminal Station.

Throughout January and February, we will be conducting investigations within the nature strip and road easements along Watson Street, The Avenue and a section of Simcock Avenue in Spotswood.

A variety of investigations are taking place, including:

- Geotechnical assessments including borehole drilling
- Cadastral surveys
- Scanning of underground services
- Topography surveys
- Noise assessments

What to expect

- Works will occur **Monday to Friday, 7:00am to 5:00pm**
- Access to all properties will be maintained throughout the works
- Traffic management will be in place to safely guide vehicles and pedestrians through the area
- Street parking may be impacted
- You may notice moderate noise levels during borehole drilling
